

5 REASONS TO REPLACE OLD CUTTING EQUIPMENT

10+ years vs. Vector

02

INCREASED
PRODUCTIVITY

By 20% to 47%

Old Vector 5000: 4-6 meters per minute
New Vector iX6/9: 10 meters per minute

04

MATERIAL SAVING

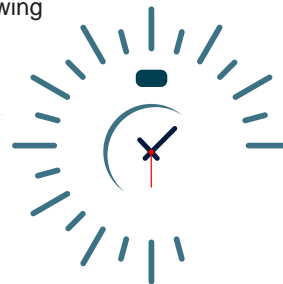

Cut fabric consumption with improved cutting head & sharpening systems

01

BETTER UPTIME

Predictive maintenance with embedded sensors allowing

up to 10% increase in
MACHINE AVAILABILITY

03

IMPROVED EFFICIENCY THROUGH
LOWER ENERGY CONSUMPTION

Reduced energy consumption with more efficient vacuum systems

Old Vector 5000 version: 36kW
New Vector iX6/9: 15kW

05

ENHANCE PERFORMANCE AND
IMPROVE QUALITY

Digitally standardize parameters for consistency
