

## DESCRIPTION

ImagePerfect 2325 Display Premium from Gerber Technology is a special polyester fabric for a wide variety of soft signage and textile display applications, including UV backlit installation for both indoor and short-term outdoor installations. It offers a high-quality print finish with remarkable text definition and a large color gamut to ensure colorful images and vibrant area in-fills. These qualities, along with being air tight and water tight with good lay flat properties, excellent crease-resistant properties, and no fraying of the edges, makes it the ideal solution for both solvent and latex and UV inks (print side in), as well as transfer/indirect dye sublimation inks (print side out).

## SPECIFICATIONS

Property	Description
Film	Polyester
Film Color	Matte White
Thickness	10 mil
Weight	6 oz/yd <sup>2</sup>
Flame Retarding	B1 (German DIN 4102 B1)
Shelf Life	1 year, 68°F (20°C) / 50% humidity
Recommendation	For optimum quality, please ensure that the media feed adjustment has been completed for this material

**NOTE:** Technical Specifications are subject to change without prior notice. Output may vary depending on the type of print data/file, application, media, environmental conditions, print speed, or other variables.
