

Label Stock

PermaGrip Label Stock is Gerber's NEW 2-mil white polyester film with aggressive adhesive. Dimensionally stable at high temperature, PermaGrip Label Stock resists tearing and puncture. Its aggressive adhesive is ideally suited for low surface energy (LSE) substrates, such as powder-coated pipe and components. It provides excellent thermal resistance over a temperature range of -40°F to 302°F, and is chemically-resistant to acids, motor oil, and cleaning agents.

ADHESION PROPERTIES (Test Method ASTM D 3330)
