

**“Remaining competitive in the automotive industry means staying on top of consumer tastes and emerging vehicle interior trends,” states Céline Choussy Bedout, Chief Marketing and Communications Officer, Lectra. “This puts additional pressure on automotive interior suppliers to be more agile. By making the switch to a fully digitalized leather cutting process, Laziale Interni Auto can be sure to keep up with carmaker demand now and into the future.”**

#### **About Laziale Interni Auto**

**Founded in 2000, Laziale Interni Auto cuts, sews and assembles trim components for tier 1 and tier 2 automotive suppliers, as well as for the rail and aeronautics industries. The company also supplies aftermarket leather interiors for classic and collector cars. Its operations are run out of two plants located in the Abruzzo and Lazio regions of Italy.**

#### **About Lectra**

**Lectra is the world leader in integrated technology solutions (software, automated cutting equipment, and associated services) specifically designed for industries using fabrics, leather, technical textiles, and composite materials to manufacture their products. It serves major world markets: fashion and apparel, automotive, and furniture as well as a broad array of other industries. Lectra’s solutions, specific to each market, enable customers to automate and optimize product design, development, and manufacturing. With more than 1,500 employees, Lectra has developed privileged relationships with prestigious customers in more than 100 countries, contributing to their operational excellence. Lectra registered revenues of \$264 million in 2015 and is listed on Euronext.**
