

FOR IMMEDIATE RELEASE

Lectra Fashion PLM 4.0 ranked No. 1 by Industry Experts

WhichPLM finds Lectra outperforms the competition in terms of technical functionality and user experience

Paris, July 5, 2018 – Lectra, the technological partner for companies using fabrics and leather, received the top score in WhichPLM's recent benchmark study of the latest Lectra Fashion PLM 4.0 solution. The Industry 4.0-friendly solution was praised by the independent source of free advice for the RFA and CPG industries for providing an "outstanding user experience" delivered in a full-feature, modular structure adaptable to businesses large and small, and available at an attractive price point.

Available in three starter configurations developed to target specific fashion industry processes—Design to Source, Develop to Source and Develop to Manufacture—Lectra Fashion PLM 4.0 embodies Lectra's mission to empower fashion companies navigate the challenges and opportunities of Industry 4.0. Lectra Fashion PLM 4.0 scored above the industry average in 32 of the 44 functional areas that WhichPLM outlined and assessed. The platform has been judged as a cornerstone solution that connects processes, systems and supply chains. Drawing on lessons from machine learning, the solution equips users with tools enabling them to work more efficiently and accelerate the product development process.

"Lectra Fashion PLM *-decade journey to connect brands and retailers with their supply chains, and to build a comprehensive, end-to-end suite of integrated solutions that can be adapted and configured for almost any business model,"* says Mark Harrop, the CEO and Founder of WhichPLM.

The WhichPLM Supplier Evaluation is an annual across-the-board assessment of PLM solutions currently on the market. Experts review the solutions based on criteria such as supplier competencies and industry knowledge, roadmap and development, executive vision and customer feedback. In the words of WhichPLM, Lectra Fashion PLM 4.0, which earned an above-industry-average of 3.75 stars out of five, *"is well-priced, fully-featured, has an outstanding user experience that is consistent across all modules, and is sold and supported by a business that understands the future of fashion intimately."*

Lectra was highly applauded for its ongoing research and development to improve the user experience year in and year out.

modern UX and UI design, adds Mark Harrop. Lectra Fashion PLM 4.0 was awarded higher scores than competitors in ten other areas including Adobe Illustrator integration, 3D-design tools, BOM management, libraries, costing with advanced material yields, and graphical user interface. In terms of configurability, credit was given to Lectra for developing Lectra Easy Tools, which allow

“We are very proud of our score, as this study was carried out by reputable experts with over 30+ years of experience in fashion PDM & PLM. By focusing on the user experience, we have given the power to our customers, who have been the driving force behind all these improvements. As a result, we have managed to develop a product that best suits their business needs on a case-to-case basis. Our score reflects that and we will continue working in that direction” Céline Choussy Bedouet, Chief Marketing and Communications Officer, Lectra.
